# Pre-Harvest Block Inspection

Yes/No/NA

Verified

01	Are there any signs of past flooding issues?			
02	Are there any signs of natural flooding currently?			
03	Are there any signs of irrigation flooding currently?			
04	Is there any evidence of visible pesticide contamination (crop or ground)?			
05	Any visual evidence of animals/birds in the block including droppings, carcasses, tracks, etc., as well as live animals (crop or ground)?			
06	Are there any potentially contaminating materials e.g. compost, manure, etc., present in such a manner as to pose a likely contamination risk to crop to be harvested?			
07	Is there any evidence that field workers have not complied with employee hygiene rules and potentially created contamination issues e.g. excessive trash in fields?			
08	Any observed issues on adjacent lands that have or might contaminate the block e.g. livestock, manure piles, etc.?			
09	Any signs of a security issue e.g. broken fencing in the block, unusual tire tracks, etc.?			

10	Any other issues in the block that could be a crop contamination concern (please specify in comments section)?
