

# Affiliate and Subcontractor Development at PrimusLabs.com

Rev1071904

Audits carried by affiliates using PrimusLabs.com system but have not been sub-contracted by PrimusLabs.com. Affiliates obtain work for themselves and utilize the PrimusLabs.com on-line auditing database. Affiliates must complete the on-line training and exam. Affiliates should not be first party or second party operators. Affiliates who are not used for sub-contracting do not have to attend the training seminar and do not have to shadow or be shadowed. Many affiliates do attend the training sessions as part of their education and understanding of the systems. Independently contracted audits are not subject to the audit report review system. Affiliate audit reports that have not been sub contracted by PrimusLabs.com, will state "Independently Contracted" in the title and they will not bear the PrimusLabs.com logo.

## AFFILIATE

## SUBCONTRACTOR

Audits carried out on behalf of PrimusLabs.com by an affiliate i.e. sub-contracted by PrimusLabs.com to an existing affiliate. PrimusLabs.com decides which affiliates to sub-contract audits to based on the individual affiliates abilities, location and past track record. Affiliates chosen for sub-contracting work have passed the on-line exam, have attended a training seminar, receive update e-mails and have shadowed PrimusLabs.com auditors. Subcontractor's audit reports are subject to the review system. Sub-contract audit reports will state "Sub-Contract" in the title and the report will also bear the PrimusLabs.com logo.
