To Whom It May Concern:

PrimusLabs' analyses are conducted in accordance with the requirements of the Food and Drug Administration's (FDA) Pesticide Analytical Manual (PAM) and Bacteriological Analytical Manual (BAM) procedures, the U.S. Department of Agriculture (USDA) procedures and the Official Methods of Analysis of AOAC International.

The PrimusLabs Microbiology laboratories are accredited to ISO 17025 by the American Association for Laboratory Accreditation (U.S. – A2LA Cert. No. 3572.01 and Mexico – A2LA Cert. No. 3572.02) for the microbiological analysis of food, water and environmental samples using various methods. The PrimusLabs U.S. Pesticide Residue laboratory is accredited to ISO 17025 by A2LA for the pesticide and mycotoxin analysis of food (A2LA Cert. No. 3572.03), and the PrimusLabs Guadalajara Pesticide Residue laboratory is accredited for the pesticide analysis of food (A2LA Cert. No. 3572.04)

PrimusLabs is also approved by the FDA for the analysis of food products on detention prior to entering the U.S. for pesticides and microorganisms. These evaluations involve a detailed review of the Quality Management System (QMS) and onsite inspections.

PrimusLabs participates in a variety of ongoing multiple sample proficiency testing programs administered by LGC Ltd.

- ◆ A2LA ISO 17025 microbiological analyses of water
- ◆ A2LA ISO 17025 microbiological analyses for foodborne pathogens
- ◆ A2LA ISO 17025 pesticide analyses
